

River banks in Ornans

Thierry Walger, from Le Point Lumineux lighting agency wanted to make a strong symbol of night fall on the river using the light on La Loue river banks, the stone bridge and the pathway of the town.

The colour mix of King blue (K), standard blue (L) and cool white (W) create a poetic luminous effect over the river.

The footbridge with 8 bespoke half-crowns with 8 LEDs in 3W at 10° were specifically developed for this footbridge and are fixed at the top of each pillar supporting the footbridge. Half-crowns have a dimmable intensity.

Prime contractor: Ornans Town hall
Installer: Eiffage Energie
Specifier: Le Point Lumineux
