

Historical town centre, Herstal

This Belgian town redolent of past glories (known as the City of Armourers) has redeveloped its historic centre and town square. TECTEO found a solution for every special feature of the site by using a variety of LEC marker-lights and spotlights.

For example:

- > Flush red marker-lights [2852 - Pyramide] embedded in the streets adjoining Place Jean-Jaurès.
- > Small lightbars [5633 - Arches] to frame the town hall's windows.
- > Modules [5630 - Belval] that fit in stair handrails.
- > Embedded red 18-LED lights [5726 - Alamo] for the town hall's side façade.
- > Small blue domes [1750A - Bourgogne] embedded in the pedestrian walkway.
- > White 5726 - Alamo] , [5716 - Allevard] , [4040 - Luminy 4] and red [4020 - Luminy 2] for the church entrance.
- > Red [4020 - Luminy 2] for the town hall's clock tower.
