

French & Italian platforms of the Mont Blanc tunnel

On the occasion of the Mont Blanc tunnel's 50-year running services, celebrated last June 2015, and on the request of GEIE Tunnel du Mont Blanc, lighting designer Agence Lumière up-lit both French and Italian entry platforms of the Mont Blanc tunnel.

GEIE Tunnel du Mont Blanc favored a LED lighting and worked with LEC who supplied:

- 62 meters of Ligny-5635 linear light bars
- 30 projectors 4020-Luminy 2
- 14 projectors 4040-Luminy 4

A crepuscular switch activates the luminaires, which are DMX controlled and ignite the defined colored scenario in cold white and blue waves.

Client: GEIE Tunnel du Mont Blanc
Lighting designer: L'Agence lumière

French & Italian platforms of the Mont Blanc tunnel

4020 - Luminy 2

30 projecteurs 4020-Luminy 2 en blanc froid, optique 20° sont installés sur les pointes (en V) de la plateforme, côté français.

4040 - Luminy 4

Adjustable on 2 axis

14 projecteurs 4040-Luminy 4 en blanc froid, optique 10° permettent un éclairage latéral des blocs de béton situés sur les côtés de l'entrée du tunnel, plateforme italienne.
