The Odysee in Valenciennes (North of France)

The new culturel center of the Chasse Royale quarter in Valenciennes was recently inaugurated as part of the city's urban renewal program.
The major challenge on lighting this cube made of iron and steel was to "represent the waves of the Mediterranean sea with an azure blue" to recall the origin of the name of this building - The Odyssee!

This up-lighting echoes very much that of the MuCEM in Marseille.

Specifier: City of Valenciennes
Installer: Satelec
Photos: Candeliance
