Mont-de-Marsan

The banks of the river Midouze in Mont-de-Marsan (Southwest of France) have been refurbished and the lighting designers Concepto have imagined an enlightment of the dock watering place.

In the stone walls, 14 recessed spotlights 5716 - Allevard were placed to enlight the docks ; the inside of the watering place was lit with 12 x 4020 - Luminy 2 in blue and in blue and green mixture as well as 8 x 4040 - Luminy 4 in white. The ground was lit with 10 spotlights 1750A-Bourgogne with diffusing dome.
