

«La Tour du Guet» in Chagny

Light enhancement of the Watch Tower - "Tour du Guet" - in Chagny in the Burgandy region

The lighting of the tower is part of a comprehensive redevelopment of the Jean Moulin square and the Marc Boillet street.

For Vittorio Sparta, lighting designer, the goal of this light enhancement was to enjoy the sunsets from the Watch Tower, that overhangs the old city "in a cosy, contrasted and friendly atmosphere."

- > Lighting of the arches with the lightbar [5733-Swindon](#)-CE6-L3
- > Lighting of the facades with the adjustable recessed spotlights in neutral white [5716-Alleward](#)-CN7-10 and [5716-Alleward](#)-CN7-20
- > Lighting of the terrace with the spotlights [4040-Luminy 4](#)-CN12-116X44E and [4040-Luminy 4](#)-CW12-10.

A few words from Vittorio Sparta :

"It was obvious for me to work with LEC because of the diversity and the reliability of their products, LEC's manufacturing flexibility and its wide choice of lens. I have complete trust in the expected end result."
