

Clemenceau bridge, Lyon

To illuminate the Clemenceau bridge over the Saône river, the lighting agency, Côté Lumière designed the reflection of the bridge over the water by a horizontal line of light as well as light dots alongside and a mesh of light dots underneath the bridge. To blend with the nocturnal, urban and watery environment, the agency created an airy and warm atmosphere with the lights.

Client: Ville de Lyon
Specifier: Côté Lumière
Installer: Sobecca
